Snapshot-Photography Competition

Date-02 June /2023

Venue- Seminar Hall

Student Coordinator- Yash Hasani

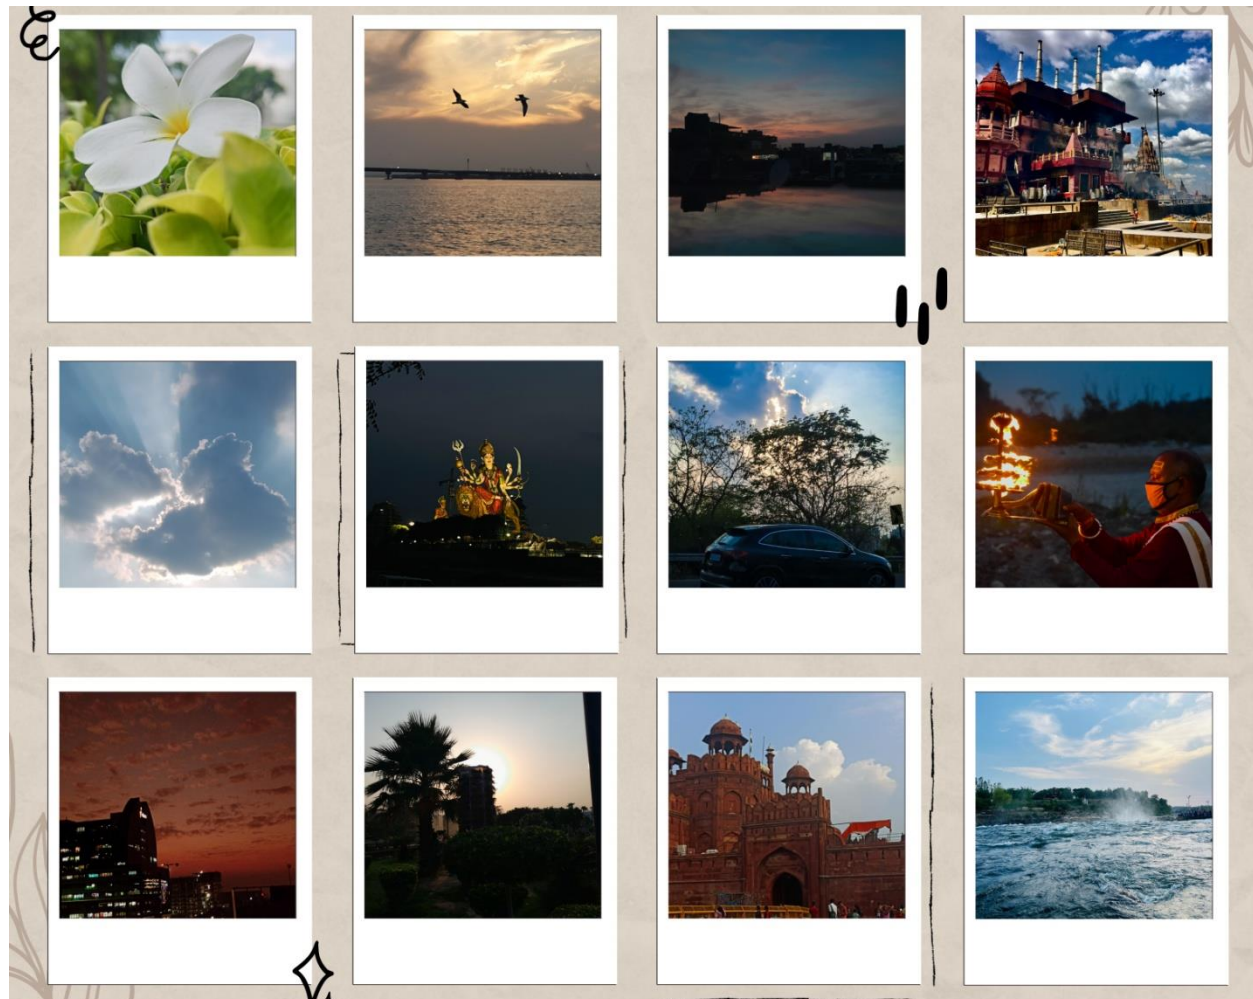

The college photography competition was organised on **2 June 2023** by the students of **United College of Education at Utsaah 2023** as part of our annual curriculum. The purpose of the competition was to provide a platform for college students to showcase their photography skills and creative ity.The photography competition was open to all students enrolled in the college, regardless of their field of study. The participants were required to submit their photographs based on any open theme which was announced in advance. The competition was a resounding success and encouraged the student's artistic expression and also promoted visual arts within the college community.

Event Highlights:

1. **Registration and Display:** Participants were required to register for the competition in advance, submitting their best photographs across various categories such as landscape, portrait, wildlife, abstract, and street photography. The entries were displayed in a designated area, allowing visitors and participants to appreciate the diversity and talent of the photographers.
2. **Judging Panel:** The judging panel consisted of renowned photographers and industry experts who brought their expertise and critical eye to evaluate the submissions. Their combined experience ensured a fair and unbiased selection process. The judges considered factors such as composition, technical proficiency, creativity, and storytelling elements while assessing the entries.
3. **Photography Workshops:** To further enhance the participants' skills and knowledge, the event included a series of photography workshops conducted by seasoned professionals. These workshops covered various aspects of photography, including composition techniques, lighting, post-processing, and storytelling through images. The workshops provided valuable insights and practical tips to both aspiring and experienced photographers.
4. **Guest Speaker:** A distinguished guest speaker, [Name], an acclaimed photographer and recipient of several awards, delivered an inspiring keynote address. [Name] shared personal experiences, discussed the importance of photography as a medium of expression, and provided valuable advice to the audience. The speech served as a source of motivation for the participants and encouraged them to continue pursuing their passion.
5. **Awards Ceremony:** The highlight of the event was the awards ceremony, where the winners were announced and recognized for their outstanding work. The top three entries in each category received prizes and certificates, along with accolades from the judges and attendees. The winners' photographs were displayed prominently, showcasing their exceptional talent to the audience.

6. Networking Opportunities: The photography competition provided an excellent platform for photographers to network with like-minded individuals, industry professionals, and potential clients. Participants had the opportunity to exchange ideas, share their experiences, and establish valuable connections, fostering a sense of community and collaboration among photographers.

Conclusion: The photography competition was a resounding success, bringing together photographers of different skill levels and backgrounds to celebrate the art of photography. The event provided a platform for participants to showcase their talent, gain recognition, and learn from industry experts. The workshops, guest speaker session, and networking opportunities enriched the experience for all involved, inspiring creativity and fostering a sense of camaraderie among photographers. The event left a lasting impact on both participants and attendees, affirming the significance of photography as a powerful medium of visual storytelling.

**WORKSHOP ON:- THE IMPORTANCE OF LIGHTS IN STILL
PHOTOGRAPHY**

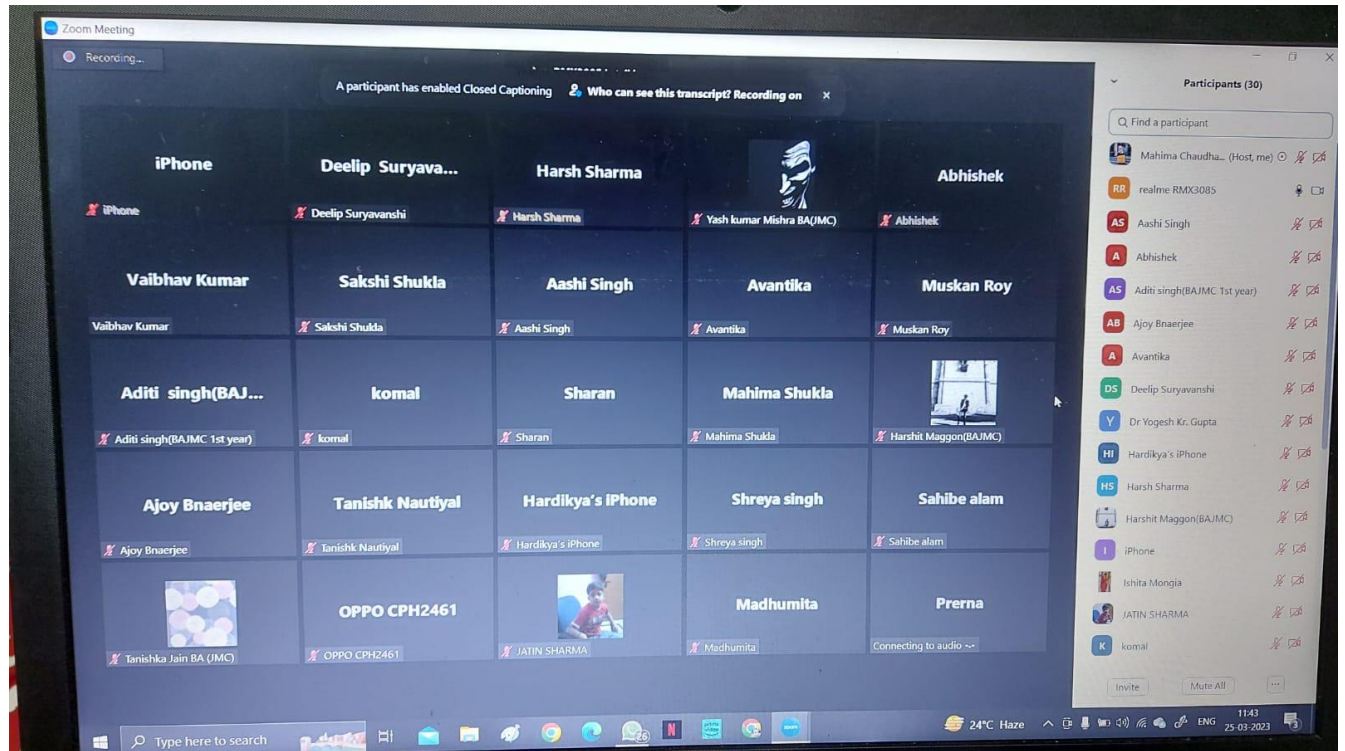

On 31st March 2023 workshop has been organized for the students of Ba(jmc) on the subject of importance of lights, lights play a fundamental role in capturing captivating and visually appealing images. While cameras are the primary tools for capturing images, it is the proper use of lighting that brings subjects to life and creates the desired mood, depth, and dimension in photographs. Understanding the significance of lights and how they interact with the subject is crucial for any photographer looking to elevate their work to the next level. This article explores the importance of lights in still photography and highlights the impact they have on the overall quality and storytelling potential of an image.

Lights are essential for illuminating the subject and ensuring proper exposure in a photograph. By controlling the intensity, direction, and quality of light, photographers can manipulate shadows and highlights to create visual interest and enhance the overall composition. Proper lighting ensures that details are well-defined, colors are accurate, and the subject is adequately showcased, making it a critical aspect of achieving the desired aesthetic.

Through the use of lights, photographers can introduce depth and dimension to their images. By casting shadows or using techniques like backlighting, side lighting, or Rembrandt lighting, they can add texture and a three-dimensional feel to an otherwise flat subject. These lighting techniques help separate the subject from the background, giving it a sense of depth and making it more visually captivating.

Lights have the power to set the mood and atmosphere of a photograph. The color temperature, intensity, and positioning of lights can dramatically influence the emotional response of viewers. Warm, soft lighting can create a cozy and intimate atmosphere, while bright, high-contrast lighting can convey a sense of energy or drama. By understanding the impact of different lighting styles, photographers can enhance the storytelling potential of their images and evoke specific emotions in their audience.

Lights are instrumental in controlling shadows and highlights, which are vital for shaping the subject and defining its contours. By positioning lights strategically, photographers can manipulate the shadow-to-highlight ratio, creating a range of effects, from high-contrast and dramatic to soft and subtle. The interplay between shadows and highlights adds visual interest and depth to the image, allowing the photographer to control the focus and guide the viewer's attention.

AWARENESS ABOUT THE ROLE OF NGO IN SOCIETY AMONG THE
STUDENTS**

DATE – 11 APRIL 2023

VENUE: SEMINAR HALL

ORGANIZED BY DEPARTMENT OF MANAGEMENT

United College Of Education, Greater Noida Organised a seminar “Awareness about the Role Of NGO in Society among the Students” on 11th April 2023 from 3:00PM onwards Ms. Mayurakshi Verma Founder “Manindra Ashiyana Welfare Foundation” graced the occasion and was the Guest Speaker. She enlightened the students about the role of NGOs.

NGO is an organisation of a group of individuals who volunteer their services for achievement of the society’s larger goal, in the interest of the general public. It is not under control of any governmental body and is a non-profit venture for improving the welfare of citizens. NGOs act as a middleman between the society and the government, assessing the needs of individuals. They do command respect at the global level as it seeks assistance in not only the financial sector, but also in the vast field of economic, social and the political structure.

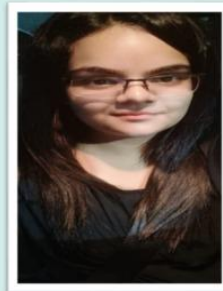

The Seminar was coordinated by the Department of Business Management. Shivam Verma, Sourabh Singh and Prashant Tiwari were the student coordinators. Ms Shreya Kaushik anchored the Seminar very effectively. All the students and Faculties of BBA, BCA, BBA LLB, BA LLB, BAJMC and MBA department attended the seminar.

GUEST LECTURE ON
ELECTRONIC MEDIA AND DIGITAL MEDIA
DATE- 25TH MARCH 2023, TIME- 11:30 AM
VENUE- ZOOM PLATFORM

On Saturday, 25th march 2023 United college of discussion organized online Guest lecture on electronic media and digital media by Mr. Dhiraj Rai assistant editor in News 18. It was a knowledgeable session where Dhiraj Rai spoke on electronic and digital media to the students. Digital and electronic media are two types of media that have been widely adopted in modern society. Digital media refers to media that can be created, viewed, distributed, and preserved using digital technology, such as computers, smartphones, and the internet. Electronic media, on the other hand, refers to media that use electronic devices, such as television, radio, and the internet, to transmit information. In this report, we will explore the characteristics, advantages, and disadvantages of digital and electronic media.

Digital media and electronic media share some characteristics, but they also have distinct features. One of the main characteristics of digital media is that it is highly interactive and allows for user participation. Digital media also offers a high degree of customization and personalization, which allows users to create and consume content that is tailored to their interests and preferences. In contrast, electronic media tends to be more passive, with users typically consuming content that has been created by others.

Another important characteristic of digital media is its flexibility and adaptability. Digital media can be easily modified, updated, and repurposed to suit different contexts and purposes. This is particularly true for online media, which can be easily shared and distributed across different platforms and devices. In contrast, electronic media, such as television and radio broadcasts, are typically delivered in a fixed format and cannot be easily modified or customized.

One of the main advantages of digital media is its reach and accessibility. Digital media can be accessed from anywhere, at any time, as long as there is an internet connection. This means that digital media has the potential to reach a global audience, which is especially important for businesses and organizations that want to expand their reach and connect with new customers and stakeholders.

Another advantage of digital media is its cost-effectiveness. Digital media production and distribution costs are typically lower than those associated with traditional media, such as print and television advertising. This makes digital media an attractive option for businesses and organizations that want to reach a large audience while keeping their costs down.

EVENT NAME: WORKSHOP ON CLOUD COMPUTING

DATE: 24TH MARCH 2023, FRIDAY, TIME: 2:00 PM ONWARDS

VENUE: CLASS ROOM 005, UCE BUILDING

Speaker Ms. Riya Ranjan, Cloud Engineer, Software developer has enlightened cloud computing and AWS. Cloud computing is the on-demand delivery of IT resources over the Internet with pay-as-you-go pricing. Instead of buying, owning, and maintaining physical data centers and servers, you can access technology services, such as computing power, storage, and databases, on an as-needed basis from a cloud provider like Amazon Web Services (AWS).

Amazon Web Services (AWS) is a subsidiary of Amazon that provides on-demand cloud computing platforms and APIs to individuals, companies, and governments, on a metered, pay-as-you-go basis. There are three main types of cloud computing service models that you can select based on the level of control, flexibility, and management your business needs:

Infrastructure as a service (IaaS) offers on-demand access to IT infrastructure services, including compute, storage, networking, and virtualization. It provides the highest level of control over your IT resources and most closely resembles traditional on-premises IT resources.

Platform as a service (PaaS) offers all the hardware and software resources needed for cloud application development. With PaaS, companies can focus fully on application development without the burden of managing and maintaining the underlying infrastructure.

Software as a service (SaaS) delivers a full application stack as a service, from underlying infrastructure to maintenance and updates to the app software itself. A SaaS solution is often an end-user application, where both the service and the infrastructure is managed and maintained by the cloud service provider.

The session was arranged so that our students pursuing technical and Professional degree courses B. Tech, BCA, BBA, BAJMC, BALLB and MBA can have better conceptual insight about scope, career opportunities and future prospect about ' Cloud computing and AWS. The guests were being presented with memento by Prof. (Dr.) Yogesh Kumar, Director, UCE, Greater Noida.

On 22nd March 2023, Wednesday at 2:30pm, United college of education organized an online guest lecture on "The types of media" by Yusuf Ansari. Mr. Yusuf Ansari is a resident editor in Shah Times. He has an over 30 years of experience in active journalism. The session started with a brief introduction about the media and its types. Initially the lecture began with the introduction to the three major types of media where there is print media; the strongest form of media , digital media , social media and now a days internet. He gave a brief detail about what does media do and how does it help the public.

Media plays a significant role in our daily lives, and there are many different types of media available. Each type of media has its unique characteristics, which affect how it is used and consumed. Print, broadcast, digital, outdoor, and interactive media all provide different ways for people to access information and entertainment. As technology continues to advance, new forms of media will emerge, and the way we consume media will continue to evolve.

Media is a collective term used to describe various channels of communication that enable people to share information, ideas, and opinions. Media is an essential part of our daily lives, and it plays a vital role in shaping our perceptions and beliefs.

ENTREPRENEURSHIP DEVELOPMENT CELL (EDC) ON 'AFFILIATE MARKETING' 10TH MARCH 2022

United Group of Institutions, Greater Noida successfully organized an Interactive Session on 'Affiliate Marketing' by Kartik Gupta, BCA 1st Year on 10th March 2022 at 2:00pm in online mode. An online Session was graced with the presence of 30 student participants and faculty members. Our Sincere gratitude goes to all the dignitaries of United College of Education, Greater Noida for granting permission to us for organizing this Interactive Session. Affiliate marketing is an advertising model in which a company pays others (e.g., bloggers) to advertise their products and services and generate sales. Affiliates place ads or market the products or services on their website, app, or blog. Commissions are paid on leads that convert to sales. There are three main types of affiliate marketing: unattached affiliate marketing, related affiliate marketing, and involved affiliate marketing.

The session was arranged so that our students pursuing technical and Professional degree courses can have better conceptual insight about scope, career opportunities and future prospect about startup.

GREEN ACCOUNTING 20-AUG-2022

United college of education , greater noida organized a seminar on the topic of “ green accounting “ by CA RK Jain. The seminar was conducted on 20-08-2022.

Green accounting is said to only ensure weak sustainability, which should be considered as a step toward ultimately a strong sustainability. Valuation of natural resources is an essential input into both social cost-benefit analysis and some approaches to environmental accounting. In this chapter the natural accounts tables, physical input–output tables, and material flow accounts methodologies are discussed and will help readers to be able to carry out natural resource accounting for important sectors like forests, water, and ecosystem services.

Motive of the seminar was to make students aware from Green accounting helps to identify the environmental impacts of economic activities and promotes sustainable development by encouraging the conservation and efficient use of natural resources.

BODY LANGUAGE

30-APRIL -2022

On 30-04-2022, united college of education conducted a session on “Body Language” . The aim of the session was to know the importance of body language is that it assists us in understanding and decoding what the person is saying. Body language also helps interpret other peoples' moods and emotions. Apart from this, it enhances our conscious understanding of people's reactions to what we say and how we say it. Body language enhances and amplifies the verbal message being portrayed through hand signals, gestures and postures. It helps us to convey emotions and intentions that may not be adequately expressed through words alone. A successful speaker uses words and body language together to convey a message and show sincerity. Body language includes movement, gestures, facial expressions, and eye contact. SELF- DEFENCE FOR WOMEN

23-APRIL-2022

On 23-April-2022, united college of education conducted a seminar on self defence for woman. Name of the speaker was Mr. Rahul Kr. In the seminar.

Objectives

- 1) To educate the girl students about the different types of violence against them
- 2) To provide knowledge about the different tips of self-protection to keep in mind in different situations.
- 3) To show case and give demo on different self defence techniques.

Purpose of the Workshop:

The need of the hour for the girls and women in the society is to safeguard them against violence committed against them. It is felt that student welfare can strengthen the girl students for their self-protection and women empowerment

The workshop started with an inaugural speech by Director of united college of education. He highlighted the key points why such kinds of seminars are required to sensitize our girl child/students to self-protect themselves in public places as well as at home. He also pointed out that this is the demand of the hour as we can relate ourselves to the news items of domestic violence, eve-teasing cases and other severe forms of violence against women and children which is pouring in on a day to day basis.
